COMPTROLLER GENERAL OF THE UNITED STATES,
Washington, March 9, 1956.

Hon. OLIN E. TEAGUE,
Chairman, Committee on Veterans' Affairs,
House of Representatives.

DEAR MR. CHAIRMAN: Herewith are copies of a report of survey conducted by the General Accounting Office pursuant to your request in letter of October 20, 1955, that a survey be made of the financial status of a representative grouping of dependent parents carried on the death compensation rolls of the Veterans' Administration.

The report shows the incomes from all sources, except compensation to the parents for the service-connected death of the related veteran, and the net worths of 1,600 cases comprising 2,072 dependent parents on the rolls of the Veterans' Administration in October 1955. The report also relates the financial information to, and shows the application and effect of, governing laws and VA Regulations, and shows pertinent other findings.

I trust this information will be of assistance to your committee and should you desire further information we will be pleased to furnish it upon request.

The cooperation and assistance of the Administrator of Veterans' Affairs in this survey was very helpful and greatly appreciated.

Sincerely yours,

JOSEPH CAMPBELL,
Comptroller General of the United States.

REPORT OF SURVEY OF THE FINANCIAL CONDITION OF DEPENDENT PARENTS IN RECEIPT OF COMPENSATION FOR SERVICE-CONNECTED DEATH OF A SERVICEMAN OR VETERAN

INTRODUCTION

The chairman, Committee on Veterans' Affairs, House of Representatives, by letter dated October 20, 1955, requested a survey be made of a representative grouping of dependent parents, carried on the death compensation rolls of the Veterans' Administration, to determine their financial status. The names and addresses of dependent parents and other requested information were furnished by the Veterans' Administration.

The survey was started on November 15, 1955, and covered 1,600 of about 250,500 cases of dependent parents located throughout the United States. The results are shown in this report.

BACKGROUND—PRESENT LAWS AND VA REGULATIONS

As of September 30, 1955, there were 331,468 dependent parents, 219,520 mothers, and 111,948 fathers, in receipt of compensation for the service-connected death of a serviceman or veteran. The 331,468 surviving parents constitute 250,473 cases ,since 2 surviving parents receiving compensation were considered as 1 case.

The number of surviving dependent parents, and the number of 1- and 2-dependent-parent cases, as of September 30, 1955, covering wartime and peacetime service, were as follows:

TABLE NO. 1.—*Surviving dependent parent(s) of deceased servicemen or veterans as of Sept. 30, 1955*

	Total number of dependent parents	Total number of dependent-parent cases [1]	Number of 1-dependent-parent cases			Number of 2-dependent-parent cases

Total	331,468	250,473	138,525	30,953	169,478	80,995

[1] Where 2 surviving dependent parents receive compensation it is considered 1 case.
[2] Includes cases where the service-connected death of the veteran resulted from extra hazardous service, service under conditions simulating war, etc., entitling the dependent parent(s) to death compensation at wartime service rates. (Public Law 868, 80th Cong., July 1, 1948.)

Under the present laws and VA Regulations compensation is payable to the dependent parent(s) [1] of any deceased person who died as the result of injury or disease incurred in, or aggravated in, line of duty in active military or naval service during war or peacetime service.[2] The dependent parents are entitled to receive death compensation at the following monthly rates:

	Wartime service	Peacetime service
1-dependent parent	$75	$60
2-dependent parents (each)	40	32

This compensation continues during dependency whether dependency arises prior or subsequent to the death of the veteran on whose account the benefit is payable.

To receive death compensation the dependent parent files an application with the Veterans' Adminstration (exhibit 1) showing certain data relating to the deceased veteran, and information of the parent's income, assets, liabilities, and expenses.

In determining whether the parent(s) is dependent, the regulations of the VA provide:

(1) Dependency will be held to exist if the father or mother of the veteran does not have an income sufficient to provide reasonable maintenance for such father or mother and members of his or her family under legal age and for dependent adult members of the family if the dependency of such adult member results from mental or physical incapacity. "Reasonable maintenance" includes not only housing, food, clothing, and medical care sufficient to sustain life, but such items beyond the bare necessities, and as well as other requirements reasonably necessary to provide those conveniences and conforts of living suitable to and consistent with the parents' reasonable mode of life. * * * (38 C. F. R. 3.57 (a)).

(2) In addition to considering income of a father or mother, consideration will be given to the corpus of such claimant's estate if under all the circumstances it is reasonable that the same or some part thereof be sold and the proceeds consumed for the claimant's maintenance (38 C. F. R. 3.57 (b) (4)).

(3) A prima facie case of dependency is made when the monthly income "from sources proper to consider" does not exceed—

(*a*) $105 ($1,260 annual) for a mother or father (not living together);

(*b*) $175 ($2,100 annual) for a mother and father (living together);

(*c*) plus $45 ($540 annual) for each additional member of the family under legal age and for dependent adult members of the family whom the father or mother is under moral or legal obligation to support.

"Sources proper to consider" in determining the amount of income are defined by regulations of the Veterans' Administration,[3] as follows:

(i) net income from property owned, or business operated by the mother or father;

(ii) earnings of the mother or father and other members of their family under legal age;

(iii) actual contributions of any character to the family expenses by the adult members;

(iv) so-called social security benefits, i. e., old age assistance and old age and survivor's insurance;

(v) family allowances received pursuant to Public Law 351, 81st Congress, as amended.

In addition to defining the sources of income to be considered, the regulations of the Veterans Administration also provide that amounts received from certain

[1] Parent is defined as father, mother, father through adoption, mother through adoption, and persons who have stood in loco parentis to a member of the military or naval forces at any time prior to entry into active service for a period not less than 1 year (38 U. S. C., ch. 12A, Veterans' Regulations).

other sources, such as VA payments, "will be disregarded" in determining dependency.[4]

Purpose and Scope of Survey

The purpose of the survey is to determine the financial status of a representative grouping of dependent parents in receipt of compensation for the service-connected death of a serviceman or veteran and to relate the financial information to, and show the application and effect of, governing laws and VA Regulations.

The survey covers 2,072 dependent parents, reported as 1,600 cases as follows: 1,003 cases of 1 dependent parent (875 mothers, 128 fathers); 472 cases of 2 dependent parents living together; and 125 cases of 1 dependent parent and spouse (73 dependent mothers and 52 dependent fathers).

These cases were picked at random without knowledge of the parents' income, net worth, or family status.

Sixty-eight percent (1,091 cases) of the parents surveyed were living in urban areas and 32 percent (509 cases) were living in rural areas. Rural areas, as used in this survey, are those communities located outside the metropolitan area of a city, and communities with a population under 2,500.

Information was obtained of incomes, net worths, and family status in all cases. The dependent parent(s) was interviewed (except in a few cases where illness prevented) and his or her reported income verified.

Findings

The incomes for the calendar year 1954 of the 2,072 dependent parents surveyed, comprising 1,600 cases, are shown by case category as follows:

(1) One-dependent-parent cases—as where one parent survives and claims dependency, and was receiving compensation;[5]

(2) Two-dependent-parent cases—as where both parents survive, were living together, each claim dependency, and each received compensation; and

(3) One-dependent-parent and spouse cases—as where the dependent parent receiving compensation had remarried; or where both parents survive but only one was receiving compensation.

A. INCOME—CALENDAR YEAR 1954 (EXCLUSIVE OF DEATH COMPENSATION)

1. One-dependent-parent cases

There were 1,003 one-dependent-parent cases (875 mothers and 128 fathers) surveyed. The survey shows, in brief, that over 18 percent had no 1954 income; 62 percent had income from all sources (exclusive of VA death compensation) not exceeding $1,260; and the remaining 19 percent had incomes from $1,261 to $4,888.

[4] 38 C. F. R. 3.57 (b) (3). "In determining dependency, amounts received from the following named sources, by the father or mother or other member of the family, will be disregarded, viz, (i) as designated beneficiary or otherwise of any insurance under the War Risk Insurance Act, the World War Veterans' Act, 1924, as amended, or the National Service Life Insurance Act or any amendments to either; (ii) any pension or compensation under laws administered by the Veterans' Administration: (iii) benefits under the World War Adjusted Compensation Act or the Adjusted Compensation Payment Act, or any amendments to either; (iv) the 6-month pay made to the designated beneficiary thereof pursuant to 10 U. S. C. 903, 903 (a) and 456; 34 U. S. C. 943, 944 and 855c-2; (v) payments pursuant to Mustering-Out Payment Act, 1944, Public Law 225, 78th Cong.; (vi) donations or assistance from charitable sources; (vii) payments of servicemen's indemnity under Public Law 23, 82d Cong.; (viii) annuities received under the Uniformed Services Contingency Option Act of 1953 * * *."

[5] The 1-parent cases include 6 cases where both the mother and father were receiving compensation but were not living together. Each parent is considered as a separate case in this category.

The following summary table shows the income ranges of the 1,003 one-parent cases, together with information as to the number of such parents who had minor children or other dependents:

[1] Death compensation paid to dependent parents for the service-connected death of 1 son is excluded in determining this income. Death compensation for other sons or a spouse is included in the income.

NOTE.—The initial income range of $1,260 or less, and subsequent range increases of $540 is used since in 1-parent cases if the annual income is $1,260 or less (computed as VA Regulations prescribe, see pp. 2 and 3 of this report) the parent is presumptively dependent; the $1,260 limitation is increased $540 for each minor child or other dependents of the parent. Based on these income limitations there were 819 cases of presumed dependency (see table No. 5, p. 6).

2. *Two-dependent-parent cases*

There are 472 two-dependent-parent cases (944 parents) included in the survey. The survey shows, in brief, that about 4 percent had no 1954 income; 69 percent had income from all sources (exclusive of VA death compensation) not exceeding $2,100; and the remaining 27 percent had combined incomes from $2,101 to $7,026.

The following summary table shows the ranges of combined income of the mother and father of the 472 two-dependent-parent cases, together with information as to the number of such cases where the parents had minor children or other dependents:

TABLE No. 3.—*Income range, calendar year 1954, 472 2-dependent-parent cases*

[1] Death compensation paid to dependent parents for the service-connected death of 1 son is excluded in determining this income. Death compensation for other sons or a spouse is included in the income.

NOTE.—The initial income range of $2,100 or less, and subsequent range increases of $540 is used since in 2-parent cases if the annual income is $2,100 or less (computed as VA Regulations prescribe, see pp. 2 and 3 of this report) the parent is presumptively dependent; the $2,100 limitation is increased $540 for each minor child or other dependents of the parent. Based on these income limitations there were 369 cases of presumed dependency (see table No. 5, p. 6).

3. One-dependent-parent and spouse cases

In this category of 125 one-dependent-parent and spouse cases are 105 cases where the dependent parent had remarried and 20 cases where both parents survive but only 1 parent received death compensation. The combined income ranges of the dependent parent and spouse are shown in table 4 below and the separate income ranges of the dependent parent and his or her spouse are shown in tables 4–A and 4–B, respectively.

The following summary table shows the combined income ranges for the calendar year 1954 for the 125 dependent-parent and spouse cases:

TABLE No. 4.—*Combined income, calendar year 1954; 125 one-dependent-parent and spouse cases*

[1]Death compensation paid to dependent parents for the service-connected death of 1 son is excluded in determining this income. Death compensation for other sons or a spouse is included in the income.

The survey of the 125 dependent-parent and spouse cases shows, in brief, that 18 percent of the dependent parents had no income; 65 percent had income from all sources (exclusive of VA death compensation) not exceeding $1,260; and the remaining 17 percent had incomes ranging from $1,261 to $4,113. The following summary table shows the ranges of income for the calendar year 1954 for the 125 dependent parents, together with information as to the number of such parents who had minor children or other dependents:

NOTE.—Based on the income limitation of $1,260, plus $540 for each dependent of the parents, there were 111 cases of presumed dependency (see table No. 5, p. 6).

As to the separate incomes of the 125 spouses, the survey shows (*a*) 42 percent had no income, (*b*) 37 percent had income not exceeding $1,260, and (*c*) the remaining 21 percent had incomes ranging from $1,261 to $4,742 as indicated in the following table:

A case-by-case analysis of the financial and family status of the 1,600 dependent-parent cases is shown in exhibit 2.

B. EFFECT OF VA REGULATIONS UPON INCOME IN CREATING CASES OF "PRESUMPTIVE DEPENDENCY"

The foregoing tables of income ranges reflect all the income of dependent parents except income (compensation) received from the Veterans' Administration for the dealth of the related veteran. Under VA Regulations, in determining if dependency exists, certain income is disregarded (see footnote 4, p. 3). If the income which VA Regulations disregards is deducted from the incomes of the dependent parents, it follows that the individual income would be correspondingly reduced.[6] This in turn would increase the number of presumptive dependents to the extent the amount deducted operates to place the particular case in a "presumptive dependency" classification. "Presumptive dependency" exists in 1-dependent-parent cases if the annual income "proper to consider" does not exceed $1,260, and in 2-dependent-parent cases if the combined annual income does not exceed $2,100; plus an additional allowance of $540 for minor children or other dependents of the parents.

As related to the incomes of dependent parents in tables 2, 3, and 4–A, the following table shows the effect upon "presumptive dependency" of disregarding the items of income authorized to be disregarded by VA Regulations.

TABLE NO. 5.—*"Presumptive dependency" before and after deduction of income items authorized to be disregarded by VA Regulations*

Type of cases	Presumed dependency before deductions		Presumed dependency after deductons		Difference	
	Number of cases	Percent	Number of cases	Percent	Number of cases	Percent
1-dependent-parent cases—1,003 cases	819	81.7	937	93.4	118	+11.7
2-dependent-parent cases—472 cases	369	78.2	424	89.8	55	+11.6
1-dependent-parent and spouse cases—125 cases	111	88.8	122	97.6	11	+8.8

[6] The effect of deducting from the parents' incomes, the amounts of VA payments authorized to be disregarded by VA Regulations, is shown, according to income ranges, by exhibits 3, 4, and 5.

C. NET WORTH OF DEPENDENT PARENTS

In addition to considering income of the mother or father of the deceased veteran in determining the parent's dependency, VA Regulations provide that "consideration will be given to the corpus of such claimants' estate if under all the circumstances it is reasonable that the same or some part thereof be sold and the proceeds consumed for the claimants' maintenance." [7] The Veterans' Administration informs us the the corpus element applies only in "rare and isolated cases," and when the claimant is aged and has substantial cash or other liquid assets, or substantial real estate holdings.

The net worth of the dependent parents, as determined in this survey, includes all real property, and all personal property, except: household furniture, personal clothing and jewelry, cash value of life insurance, or any item having a value less than $100. All liabilities were deducted, except those for food, clothing, and furniture. Our investigators verified the net worths reported by the parents if the amounts appeared unreasonable.

The net worth of the dependent parents (2,072) in the 1,600 cases surveyed is classified into dollar ranges as follows:

TABLE No. 6.—*Net worth ranges, 1,600 dependent-parent cases*

Net worth ranges	Number of cases					
	Total	Percent of 1,600	1 dependent parent [1]	Percent of 1,128	2 dependent parents	Percent of 472

Total	1,600	100.0	1,128	100.0	472	100.0

[1] Includes the dependent parents' net worth in the 125 1-dependent-parent and spouse cases.

Of the 125 dependent-parent and spouse cases surveyed, 88 spouses had no net worth; 29 had net worth of less than $5,000; and 5 had net worths between $6,000 and $8,000. In the remaining 3 cases, 1 dependent parent had no net worth but her spouse had a net worth of $15,415; in the other 2 cases the dependent parents' net worth was $6,371 and $7,042, whereas, the spouses' net worth was $10,150 and $21,500, respectively.

D. AGE OF THE DEPENDENT PARENTS

INSTRUCTIONS—Read Very Carefully Before Filling in Form

1. HOW TO FILL IN THE APPLICATION.—All the information required in this application must be furnished and the questions must be answered fully and clearly. If you do not know the answer to any question, state "Unknown." If you need more space to answer any items, attach a separate sheet, indicating the item numbers to which the answers apply. After completing this form, it should be forwarded directly to the Veterans Administration.

2. INCOMPETENTS.—If the person for whom claim is being made is incompetent, the application form should be filled in and filed by the legal guardian or, if no legal guardian has been appointed, it may be filled in and filed by some person acting as next friend.

3. FOSTER MOTHER OR FATHER—(*Persons, including stepparents, who stood in the relationship of parent to the veteran*).—If the claimant is not the natural or adoptive parent of the veteran but was the last person who stood in the relationship of parent to the veteran during his minority for a period of not less than 1 year prior to his entrance into the active military or naval service, the claimant will be required to complete VA Form 8–524 which will be furnished upon receipt of this application.

4. EVIDENCE.—General.

(*a*) If you are unable to furnish with this application form any of the required evidence listed below, explain the reason on a separate sheet.

(*b*) Evidence filed previously in the Veterans Administration need not be filed in connection with this claim.

5. PROOF OF DEATH.—Death of a veteran in active service of the Army, Navy, Air Force, Marine Corps, or Coast Guard, or in a United States Government institution does not need to be proved by a claimant. Otherwise, the claimant should forward a copy of the public record of death, certified by the custodian of such records, or a duly certified copy of a coroner's report of death, or a verdict of a coroner's jury.

6. PROOF OF RELATIONSHIP OF NATURAL OR ADOPTIVE MOTHER OR FATHER.—A copy of the public record of birth or church record of baptism showing the date of birth of the veteran and names of the parents and certified by the custodian of such records should be furnished. If neither of the records mentioned is obtainable, it is not necessary to establish one for the purpose of this claim. Instead, you should submit the affidavit of the attending physician or midwife or the affidavits of two persons who have personal knowledge of the facts, showing the date of birth and the names of the parents, and explaining the affiant's means of knowledge of the facts to which he testifies. If the veteran was an adopted child, a copy of the court order of adoption, certified by the custodian of the court record, should be furnished.

7. ORGANIZATIONS AND ATTORNEYS.—The claimant may be represented, without charge, by an accredited representative of any organization recognized by the Administrator of Veterans Affairs. The claimant also has the right to be represented by an attorney or agent who has been admitted to practice before the Veterans Administration, but the employment of such attorney or agent is unnecessary, as the Veterans Administration is pleased to give all information and assistance that may be reasonably required to establish rights of claimants. An agent or attorney who has been admitted to practice before the Veterans Administration, and has filed a power of attorney in a claim may receive for his services from the proceeds of an award a fee not exceeding $10 in an original claim for compensation or pension, and a fee of $2 in a claim for increase of such benefits. No fee is allowable for services in a claim for accrued compensation or pension. The solicitation or receipt of a fee, except as provided by law, constitutes a penal offense.
